**RETURN RECEIPT REQUESTED**  
**LETTER OF DEFICIENCY**  
**No. ARD 2005-015**

Dear Mr. Wentworth:

On October 7, 2004, the Trustee for the Bankruptcy Estate of Troy Mills, Incorporated, transferred the real estate owned by that company in Cheshire County to the Troy Redevelopment Group, Inc. ("TRG"). Included in the transferred property were two operating boilers, which are subject to New Hampshire laws requiring air permits and the payment of fees. The boilers were previously operated by Troy Mills pursuant to Title V Operating Permit TV-OP-034, which expires on December 14, 2005.

Pursuant to NH Code of Administrative Rules Env-A 907.01, the owner or operator of the boilers is required to submit an annual emissions report to the Department of Environmental Services, Air Resources Division ("DES"), by April 15 of the following year. Under Env-A 705, fees based on the calendar year 2004 emissions were due on July 15, 2005. Since TRG has been the owner since October 7, 2004, TRG is responsible for submitting the emissions report and fees based on those emissions for the months of October through December of 2004. The calendar year 2005 annual emissions report and fees based on those emissions will be due on April 15, 2006.

The emissions report for October – December, 2004, and emission-based fee should be received by DES no later than thirty days after receipt of this letter. Please make your check payable to Treasurer, State of New Hampshire, and send it to my attention at DES, P.O. Box 95, Concord, NH 03302-0095. Failure to comply with this requirement may subject TRG to enforcement proceedings in accordance with the provisions of RSA 125-C:15.

If you have any questions concerning the calculation of emissions or the emission-based fee, please contact Newton Strickland of the DES, Air Resources Division, at (603) 271-6283.

Sincerely,

**COPY**
